

# Health Plan Quality: Gaps in Care, 2025

Synthetic data (Synthea, Minnesota); no real patients · HEDIS-style measures, simplified · Rates shown as NA when fewer than 30 members

Diabetes: A1c below 8% (GSD)

87.1%

Diabetes: eye exam (EED)

44.2%

Blood pressure controlled (CBP)

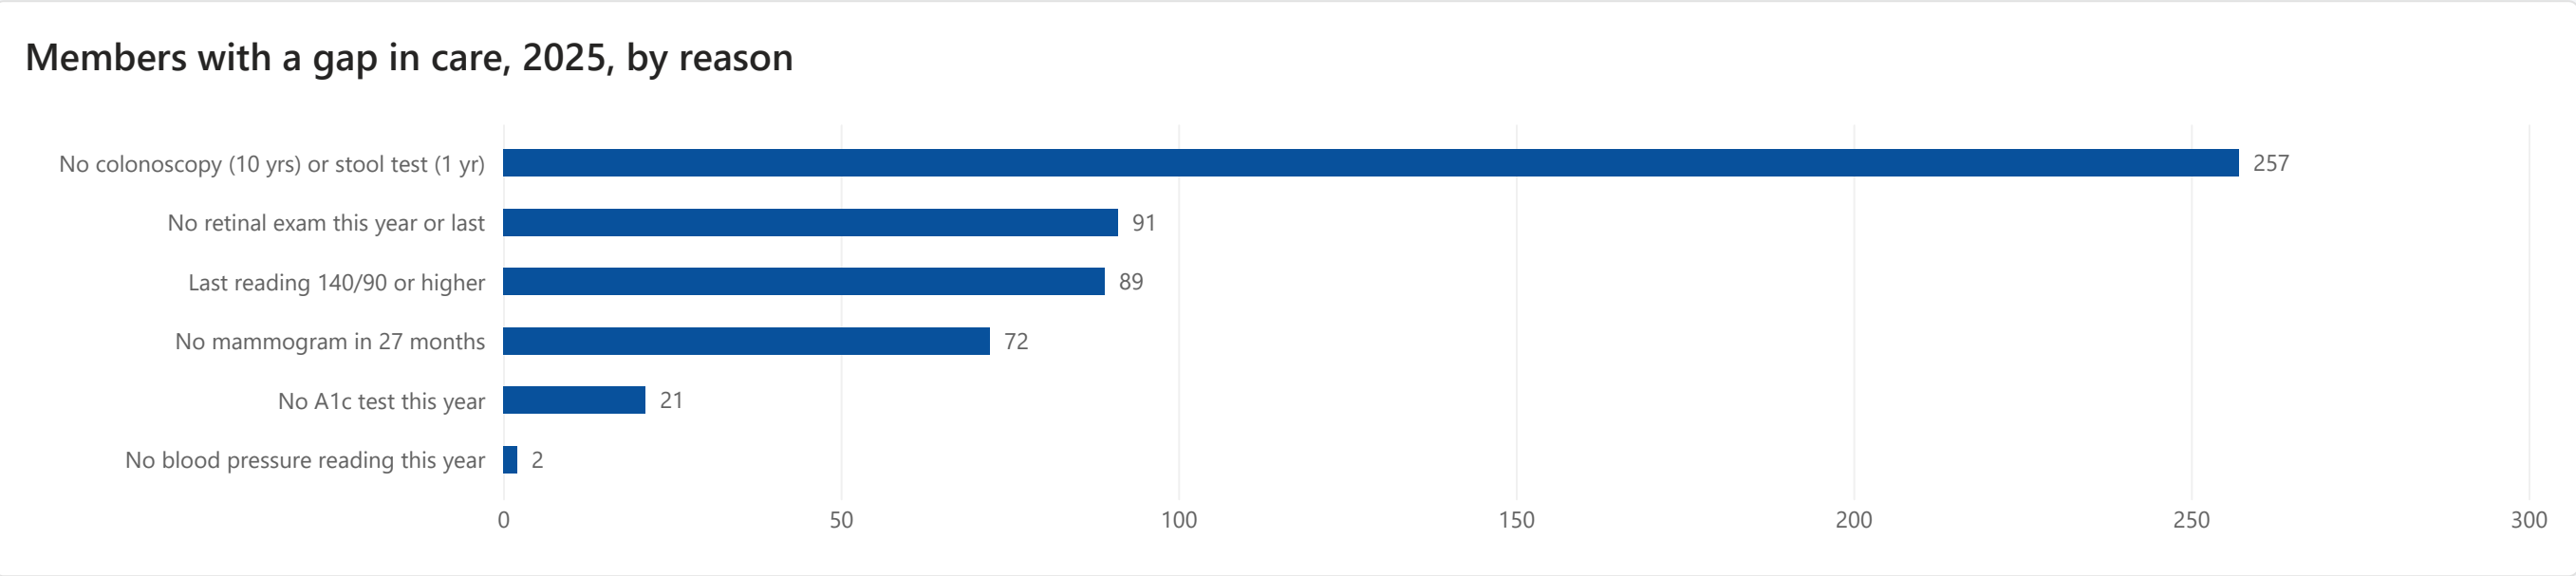

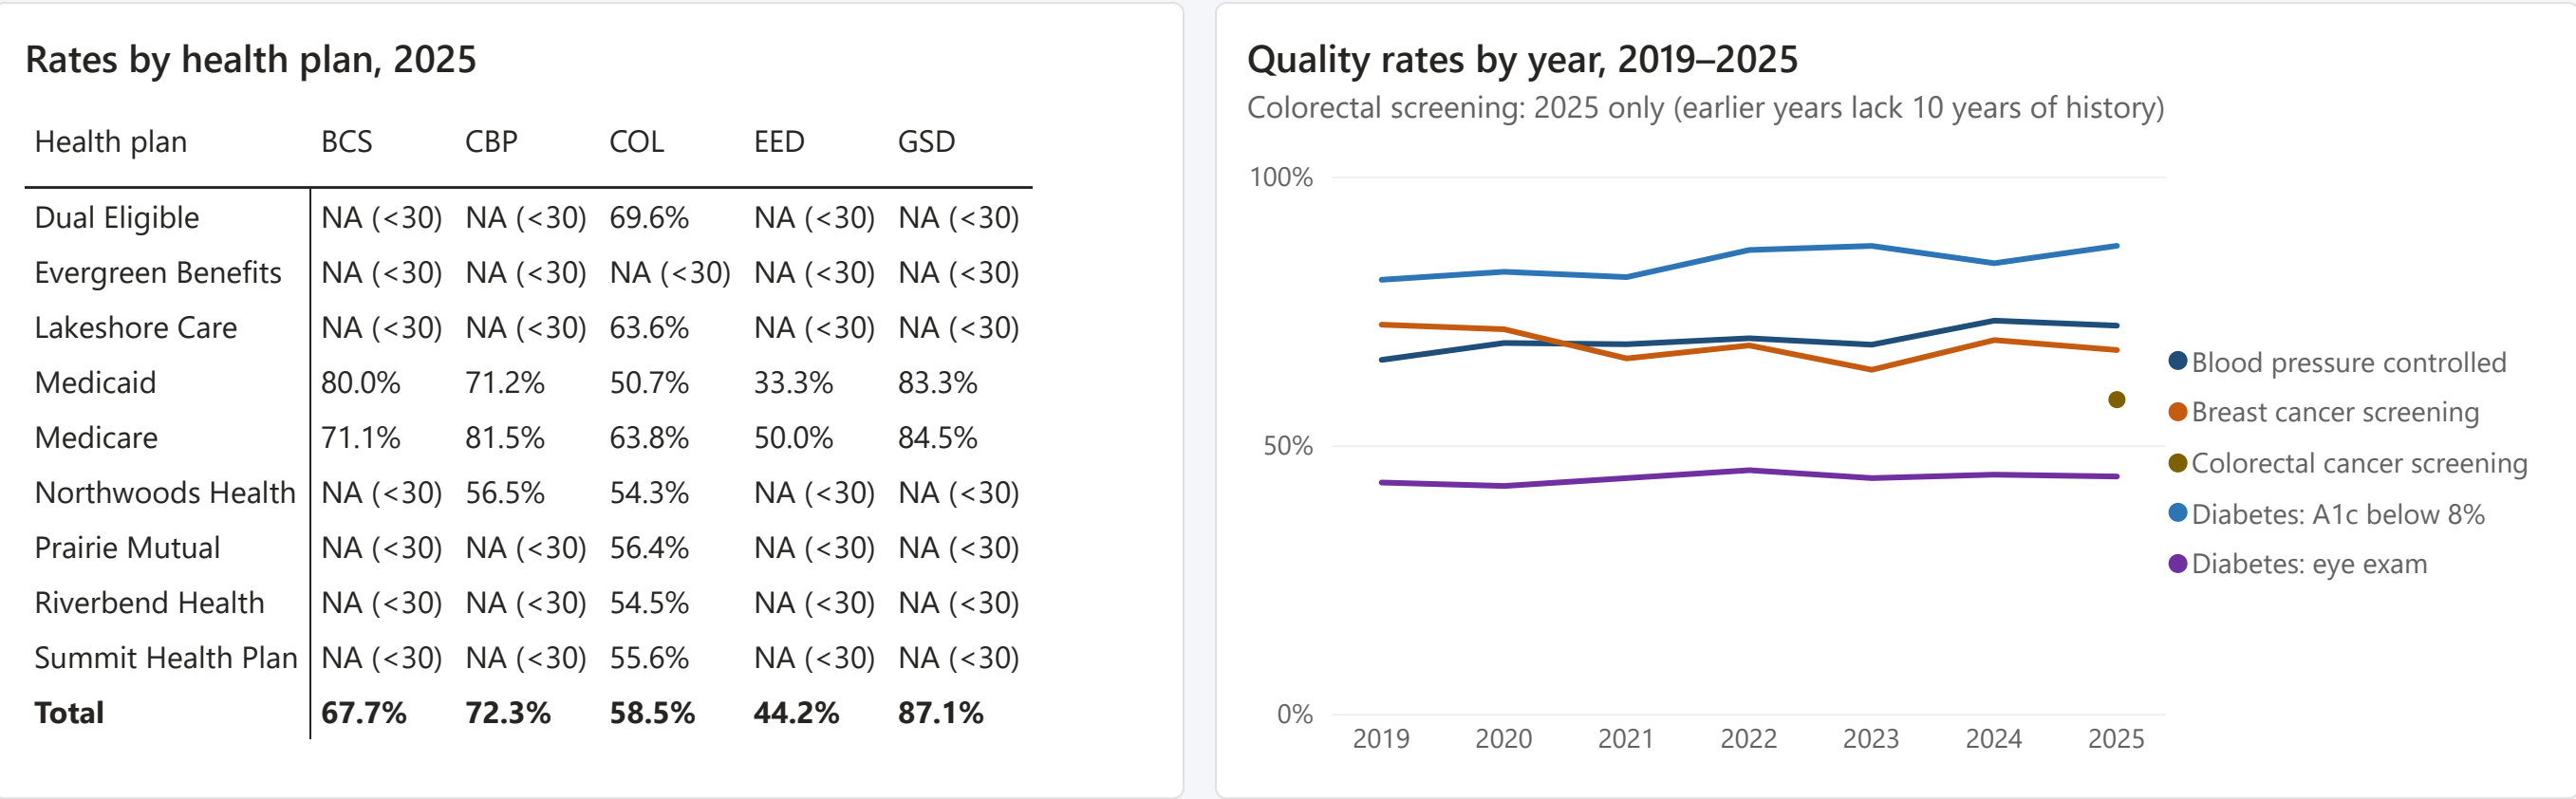

72.3%

Colorectal screening (COL)

58.5%

Breast cancer screening (BCS)\*

67.7%

\* Synthea does not simulate routine mammograms; screening mammograms were added by a documented rule (40% chance after a yearly check-up, 5% without). See README.
